

15 December 1980

SUBJECT: Draft DCID 1/16

1. Enclosed you will find a draft of the proposed DCID 1/16 rewrite, specifically:

a. A description of the functional ADP types which will be addressed.

b. An overview of the various threat scenario which will be covered.

c. A detailed rendition of the threat scenario for one system type.

2. Please review and plan to discuss in detail at the next meeting of the Computer Security Subcommittee. For the present, your review should be for the viability of the specific approach, rather than for editorial/wording comments.

Executive Secretary
